

BATHORY COIN

Whitepaper

2022

The Panamanian economy and its banking system have been known internationally as one of the strongest on the continent, and this is thanks to stable GDP growth.

Panama is considered according to Bank data World, as the country with the highest GDP per capita high in the Central American region, and due to its sustained growth, organizations such as the IMF project that by 2030 the country will reach \$35,000 dollars per capita.

However, despite these data, more than 20% of the Panamanian population suffers from

extreme poverty, mainly indigenous communities, who have always been the most marginalized, as is the case of the Ngäbe Buglé region, whose inhabitants live in very poor condition; no access to a food program, without transport routes or bridge connections that allow them to cross dangerous rivers, where children risk their lives every day to go to school.

Additionally, the increasing industrialization of the provinces has endangered their culture and ancestral customs in addition to aggravating the your situation.

In recent decades there have been projects to achieve their development, and estimate that by 2030 they will achieve the goal... But To date, these towns have submerged even more in extreme poverty, without hope to improve.

The evident inequality suffered by the peoples Native Americans require urgent help. That is why we have created the Foundation Tristan Bathory Ecsed Somlyo, without wishing to profit in the Republic of Panama, in order to receive voluntary donations to help different indigenous tribes of the country and

power expand aid to all America, through Health, Education and Wellness programs Social.

Objectives that we have set for ourselves. Eradicate Hunger and Extreme Poverty This is the dream of all institutions public and private throughout the world, without However, it is a very difficult task due to the lack of sincere interest on the part of government institutions and for the bad administrative management of the economic resources to carry out said projects, that contribute to reduce this evil that affects

a large percentage of the world's population, which Panama has more than 20% of its population living in extreme poverty.

The Tristan Bathory Ecsed Somlyo Foundation share the same dream, and through the organization that bears his name, will put into progress projects through a system of food production, focused on strengthening agriculture and livestock, in addition to promoting and promote the craft culture, to promote the self-sustaining economy.

It is a difficult but not impossible task; and to

To achieve this, it requires the economic contribution that is expected to be obtained through donations and achieve economic equilibrium, and implement ongoing training workshops ensure fairness of resources.

HEALTH AND SOCIAL WELFARE

Ensuring healthy living and promoting welfare for all, especially the peoples indigenous people and those most in need and who have access to health services, including family planning, information and education.

Achieve health coverage, access to essential

health services and obtaining medicines and vaccines, effective, affordable and of quality for all.

Substantially reduce air pollution air, water and soils.

Support research activities and development of vaccines and drugs for communicable and non-communicable diseases mainly affecting the peoples natives.

EDUCATION

The Tristan Bathory Ecsed Somlyo Foundation

also aims to build and improve educational facilities where respect the needs of children, people with disabilities and are easily accessible for the various communities, especially the indigenous population, assuring them a quality teaching that allows them to use by themselves in different spheres of life. At the university level, we have the support of THE OPEN UNIVERSITY OF TLAXCALA AC. MOUNT ARARAT VIRTUAL, which guarantee a complete and quality education to train the underprivileged population, especially to indigenous peoples, so that acquire a competitive intellectual level.

Additionally, they may opt for bachelor's degrees in just 2 and a half years, master's degree and doctorate (PHD) in less than 5 years in total.

This is the future of university education complete with English, Technology and Entrepreneurship.

In this way, ensure that all students acquire theoretical knowledge and practices necessary to promote the sustainable development in the indigenous population of Panama and other countries of the continent American.

In a few words, all the young people and a considerable proportion of adults, both men and women, are literate.

DRINKING WATER

Guarantee the availability of water and its management sustainable is another of the tasks that we want attend and that we have within reach, through the alliance with the multinational company Mayaqwa, which has atmospheric generators of water, which produces 500 liters a day, ideal for the housing supply, irrigation or small agricultural productions.

Achieve universal and equitable access to water drinking water at an affordable price for all is another of the reasons why it was created Tristan Bathory Ecsed Somlyo Foundation.

SELF-SUSTAINING ENERGY WITHOUT EFFECTS POLLUTANTS

Due to air pollution, the world is doomed to generate clean energy, and The Tristan Bathory Foundation Ecsed Somlyo hopes to implement the resources of the Mayvesenergy company, which has a solid comprehensive service system, sustainable and innovative energy packages green.

Helping the stakeholders of the electricity around the world to change and contribute to enriching the efforts of remedy global climate change and implementation strategies.

Housing solution for the indigenous people. The Tristan Bathory Ecsed Somlyo Foundation hopes to promote housing projects to the indigenous population through the organization and the alliance with the company Iglu Domo 2030, the which will build inclusive, safe, resilient and sustainable, ensuring access of all people to housing and services adequate, safe and affordable basics that

improve the quality of life of the most
people in need.

PROJECT DEVELOPMENT

Through donations, we hope to raise funds to develop projects aimed at improving the living conditions of indigenous peoples, beginning in Panama, and expanding to Latin America and the other indigenous peoples of the world.

Help developing countries through Alliances between affiliates and our foundation for Sustainable Development.

All donations and developments of projects, will be made public through our website www.tristanbathoryfoundation.org

and other social networks.

At the same time, we have developed the creation of a digital currency called **BATHORY COIN**, whose objective will be to allow all those persons who acquire and maintain this Token, help the indigenous peoples of Panama and other American countries in the same situation, to ask for help to preserve and strengthen their natural ecosystems through the foundation.

PROJECTS

PYROLYSIS REACTOR

One of the biggest problems you have Pamana at a rural and costal level is the garbage plastics that accumulate both on the coasts and in places and natural rivers with a difficul resolution it if is intended to process the plastics for recycling, as it woult continue to have more polluting plastics.

There is and environmental solution that little they talk and they are the Pyrolysis reactors that dispose of plastic and pneumatic rubber in biodegradable fuel in three types: Diesel, Gasoline and Kerosene.

From the Fundation we have projected the adquisition of portable pyrolysis reactors to be distributed by landscapes and natural rivers between the different indigenous peoples so that they collect all the plastic they can and turn then into fuel for your self-consumption in light generator or cameras refrigerators for food reservation other needs.

The energy to activate this pyrolysis reactors that is intended to be achieved, uses the firewood or fossil fuels such as coal, both in small quantities and sufficient to convert and metric TN of plastic in 100Kg. of fuel as a

PROJECTS

minimum.

SCHOOL MATERIALS KITS

It is intended to buy goods in quantity in enough to compose school material kits for the most disadvantaged families in Panama. Aid program for school children underprivileged of Panama so that they can obtain school supplies on your property without no cost to them and their families.

SOCIAL DINNING ROOM

Project to install dinning room for being able to feed people on a daily basics state of poverty in the different cities and countries of the Republic of Panama.

Bathory Coin

Like any Foundation, obtaining monthly membership fees is necessary to defray administrative costs and to be able to hire adequate personnel to manage the different areas related to the aid that is intended to be carried out in favor of indigenous peoples who need it.

In addition to these quotas in FIAT money that will be obtained from the partners, 7% of all the tokens are allocated, which is equivalent to 14,700,000 BTY, of which 2% will be to capitalize the Foundation and 5% to allocate it entirely to the Social helps.

The BTY can be burned or new tokens added if requested by the community from the different social networks to control possible inflation after verification by our financial advisors.

Also and very importantly, Bathory Coin has the possibility of pausing the entire network in case of detecting any dangerous element for the coin.

The Bathory Coin

Coinage Initial	210.000.000 BTY	
DISTRIBUTION		
Global Market	85%	178.500.000 BTY
Foundation + Social Work	7%	14.700.000 BTY
Airdrops for new members and Marketing	4,50%	9.450.000 BTY
Bathory Foundation TEAM	3,50%	7.350.000 BTY
TOTALS	100%	210.000.000 BTY

The Bathory Coin

GLOBAL MARKET

The remaining 85% of all tokens will be released through liquidity pools in Uniswap at the rate of nine 10% blocks, one 6% block and two 2% blocks until reaching 85%. If during the launching of these blocks, the market asks us to burn a block or part of it, this will be done according to the good wishes of the strategic consultants.

In addition, we open the possibility that someone interested can contribute liquidity to a complete block for the minimum amount of

100 ETH and be able to obtain the Uniswap pool commission exclusively for the interested party. For this possibility and if someone wants more information, you can contact the email support@bathorycoin.org

FOUNDATION + SOCIAL WORK

Apart from obtaining funds through membership subscriptions, the Foundation holds 6% of the total tokens, of which 2% are for administrative purposes and 4% to be allocated to work and social projects as described in the projects section.

The Bathory Coin

FREE TO RECRUIT

NEW MEMBERS

4.5% of the tokens are distributed free of charge while supplies last among all new members who subscribe with a monthly fee on the Foundation's website located at <https://fundaciontristanbathory.org>. They will be distributed monthly in fixed amounts according to the chosen subscription and regardless of whether the token fluctuates down or up in the market.

As it is a gift in compensation for a subscription

in FIAT currency, the member can benefit from a hypothetical increase in the token. In addition, with this method of promotion, we can obtain direct financing from the Foundation to launch the different social projects that are described in the "Projects" section, largely avoiding the launch of the token through means such as the ICO, which creates great mistrust.

Like any Foundation, obtaining monthly membership fees is necessary to defray administrative costs and to be able to hire adequate personnel to manage the different areas related to the aid that is intended to be

The Bathory Coin

carried out in favor of indigenous peoples who need it.

BATHORY FOUNDATION TEAM

The Foundation's development team made up of the programming, graphic design and social media departments hold 3.5% of all the tokens minted to be able to cover all the expenses that the team is contributing in advance to be able to carry out the entire project of the foundation.

CONSULTANTS

1% of all minted tokens have been allocated to

cover all tax advisory expenses for the Foundation's internal consultants department.
